## Champion Theatre

Saturday Night, December 13th

## The Virginian

With Gary Cooper, Richard Arlen, Mary Brian

**The greatest outdoor picture ever made.**

You see, the spectacular action. You LIVE the glamorous swagging, cattle-range days of the pioneer West. A theme as mighty as "The Covered Wagon." Filmed with sound on back grounds of stupendous natural beauty. You see the gigantic round up, three thousand cattle swimming a raging river. You see the "broncho busting," the "beef roasting." The days of the Golden West reborn!

**A great picture for everybody**

## Your Xmas Dinner

**Turkeys Geese  
Chicken or Ducks**

**Make your Christmas Dinner a success by leaving your order with us NOW.**

**Champion Meat Market**

## Chinese Pheasants At Bar U Ranch

Mr. Florence of Stavely was a visitor to Champion this week, delivering a Chinese Cock Pheasant to Mr. Geo. Baillie of the Bar U Ranch. Mr. Florence has been quite successful raising these beautiful wild birds and Mr. Baillie has also had good luck with same. Several of these wonderful fine wild game birds are now to be seen west of Champion on Stavely road, both in the fields and on the highway. A fine of \$500.00 is the penalty for anyone shooting them and with this protection it will not be many seasons before they will be a common sight for all and combined with their brilliant plumage and the male birds extra long tail we can all look forward in the near future to the most lovely wild game birds, making their permanent home right in Champion district.

## C.W.L. Bazaar Highly Successful

The turkey supper and bazaar, held by the Catholic Women's League in the Community hall on Saturday, Dec. 5, was a very decided success in every way, practically all the goods offered being sold, while the tables were patronized to their capacity, the crowds thoroughly enjoying the splendid viands prepared by those in charge. The result financially was quite satisfactory and the C.W.L. wishes to extend thanks to all contributing to the result, either by purchases, donations or patronage of the supper.

Spectacular actions, gorgeous scenic back-grounds, thrilling romance. Luscious humor, glamorous, swagging cattle range days. Live again for you. See "The Virginian" Saturday night.

## Sanderson Couple "Showered"

Sanderson school was the scene of a very happy gathering on Friday evening, Dec. 5, when the many friends of Tom and Janet Sanderson, gathered at a shower, sponsored by Mrs. H. Neumann, to wish the young couple all happiness and prosperity on their journey down the sea of matrimony. The evening opened with dancing, the splendid music for same being donated as a gift from the Fraser orchestra. Between the hours of eleven and twelve a very enjoyable program, in the form of singing and dancing, was contributed as follows: Highland Fling—Miss B. Fraser; Charleston—Miss D. Hogland; step-dancing—Mr. K. Oatis. Solo by Messrs. E. Marshall, Howard Marshall, Enan Munton, Tom Munton and Richard Fraser. A most enjoyable lunch was then served by the ladies, after which came the event of the evening. The bride and groom were asked to take the place provided at the front of the room, where, beneath a shower of confetti, they received a miniature bride and groom, in the persons of little June and John Anderson, bringing in the presents piled high in two little wagons tastefully decorated in white. The happy couple received many handsome and useful gifts such as China, table linen, hand linen, bed linen, vanity sets, center pieces, pillow slips, pillows, casseroles, silverware, kitchen utensils, a pig and a cow. The latter two gifts were not on display at the shower. Following the opening of the parcels, the groom, on behalf of his wife and himself, in a few well chosen words, suitably acknowledged the gifts and thanked the many friends for their gifts and kind wishes. Dancing was then resumed and thoroughly enjoyed by all until the hour of 2 a.m., when the party adjourned.

## High School Notes

Mr. W. D. Bailey, the director of Temperance Education for the province of Manitoba, gave a lecture to the school on Thursday, Dec. 4. Mr. Bailey has been speaking in the Manitoba schools for some years and lately has been loaned to the government of Alberta in an effort to get the schools interested in temperance education. His lecture was very interesting and we think very beneficial to the students.

Put a set of expressive, fun-loving characters in a play full of fun and wit and what is your result? Don't make rash guesses. Come and see for yourself on Dec. 22nd, "Not Quite Such a Goose" is being put on by the High School students.

Don't forget about the next Literary Society meeting. It is to be held on Dec. 19th in the United church.

## O.O.R.P. Arrange New Year's Ball

The O.O.R.P. are holding a ball on New Year's eve which promises to be one of the big events of the season. This organization have gained a high reputation as entertainers and there is no doubt the public will respond to this invitation.

## Turkey Day Sees Big Delivery

Five hundred and eighty-four turkeys, 100 geese, chickens and ducks, the turkeys alone totalling 6,894 lbs., were bought in two days' buying for the P. Burns Co. by H. E. Gill of the Champion Meat Market. This is going some.

## Royal Purple Elects Officers

The members of the Royal Purple Lodge held their annual meeting on Tuesday, Dec. 2nd, when the following officers were elected:

H. R. L. Mrs. W. B. McKee, Secretary, Mrs. Freese.  
A. R. L. Mrs. Hummel, L. L. Mrs. Siler, Lee L. Mrs. I. Ditto, Treasurer, Mrs. Latiff, Chaplain, Miss M. Carlson, Conductress, Mrs. F. Clever, I. G. Mrs. G. Hagg, O. G. Mrs. O. Harper, Three year trustee, Mrs. H. R. Matlock, Mrs. F. Gottenburg, One year trustee, Mrs. G. Dow.

## Mrs. J. Hagerman Takes O.E.S. Chair

Election of officers for 1931, Champion Chapter No. 36, O.E.S., was held on Thursday night, with the following results:

Worthy Matron, Mrs. J. Hagerman, Worthy Patron, J. M. Rosbeck, Associate Matron, Mrs. G. McLean, Associate Patron, H. E. Gill, Conductress, Mrs. G. L. Deppa, Associate Conductress, Mrs. J. O. Bell, Secretary, Mrs. H. Clements, Treasurer, G. Williamson, Organist, Mrs. W. A. McIntyre.

Bridge and bridge problems continue to engage local attention to the exclusion of almost everything else—another reason for taking on the Wednesday half holiday immediately after the holidays.

## Xmas Suggestions

### For Her:

Silk Hose, Silk Underwear, Bouquet Flowers, Plants in Flower, Stylopedic Shoes, Fancy Box Chocolates.

### For Him:

Hosiery, Dress Shirts, Shoes, Underwear, Sweaters, House Slippers, Neckwear.

ing out of town.**

## THE CHAMPION CHRONICLE

B. N. Woodhull, Publisher.

Issued every Thursday morning from the office of publication at Champton, Alberta.

Subscription \$1.50 per year, payable in advance.

## ADVERTISING RATES

Legal advertisement, 15 cents per line for first insertion, 12 cents per line for each subsequent insertion.

Advertisements of Wanted, Lost, Found, Married, etc., not exceeding one inch, 50 cents for first insertion, 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, Dec. 11, 1930

## NOTES AND COMMENT.

When people are bewildered they tend to become easily imposed upon. We are always in danger of expecting too much of the government. When there is distress such expectations are enlarged. The present condition of the country not only is not new, but not nearly so bad as it has been other times. In 1818 when John Quincy Adams learned of the failure of many of the greatest commercial houses he recorded in his diary that the greatest danger would be the application of remedies worse than the disease. That is the danger now. All any government can do is to adopt certain policies and provide the public facilities of currency, banks, revenues, highways and the like that enable the people conveniently to do business. A large expenditure of public money to stimulate trade is a temporary expedient, which begs the question. Many local governments are already taxing the people too much. Business does not need more burdens, but less. The sound way to relieve distress is by direct action. When a surplus exists it will do little good to spend public money for something more we do not need. The people have more power than any government to restore their own prosperity—Calvin Coolidge—(McClure Newspaper Syndicate).

It is too near Christmas to continue a discussion with reference to hallow'en night and its activities. The Chronicle was not aware that the council had made any move to check the damage being done, but with the assurance given by the acting mayor that they did make a real effort, although the methods used as a preventative did not seem to have any noticeable effect and should have resulted in trying something more stringent, it is satisfactory to note that the damage is recognized and that even personal contact with the offenders has been in use. We hazard the guess that if the offenders were asked to appear before a J. P. the next morning

the objectionable features of hallow'en would disappear.

At the session of the Provincial legislature, which opens late in January, it is to be hoped some effort will be made to relieve the tax burden that has been developed during the past years when farm produce was bringing good prices. It is easy to recommend things to the Dominion parliament for the relief of farmers, but some concrete action should be made by the provincial authorities to help matters out.

## THIS YEAR . . . .

## MAKE THE PRESENT COUNT TOMORROW

This year, more than ever, the thought is "Give the home a present." And what could be more appropriate than an Electric Range?

There are approximately 900 meals to be cooked in your home this year. And here's a gift that guarantees every one of them to be perfectly cooked. Think of it . . . . a whole year's cooking problems simplified.

It's so easy, you see, to have perfect results with an Electric Range. Merely adjust the Electric Timer, set the Heat Regulator . . . put your dinner in the oven . . . and that's really all there is to it. You're free for the things you'd rather do . . . and when you're ready to serve it, there's a delicious meal waiting for you.

What better Christmas gift for your family or for your home? Why not call our representative and find out how cool, clean and carefree electric cooking really is? We'll be glad to point out the superior convenience and economy features of the Electric Range.

A wide range of modern electrical appliances may now be purchased direct from the Calgary Power Company on a small down payment—balance to be paid with your regular monthly light bills.

REMEMBER THAT OVERDUE SUBSCRIPTION

# Line Of Profitable Exploitation In Northern Areas Being Rapidly Pushed Backward

No doubt many people heard of the Sverdrup Island for the first time when they read that this Arctic group now belonged to Canada. The Dominion has paid Commander Orre Sverdrup the sum of \$67,000 in return for his exploratory service in that region from 1898 to 1902, and in return the Government of Norway fully recognizes Canadian sovereignty which now covers the entire Arctic sector north of the Canadian mainland.

The Sverdrup group has a total area about equal to that of Nova Scotia and according to Commander Sverdrup, who is corroborated by Inspector Joy, it holds a peculiar species of rabbit which marches upright on its hind legs. Otherwise the island seems to be a barren waste for the fact that they are our farthest-north properties, 850 miles beyond the Arctic Circle.

So Commander Sverdrup has his \$67,000 and we have the islands, and everybody seems to have come out with a profit. The only exception of the Government of Norway, and it is not complaining. We do not quite know what we are going to do with the islands. There appears to be no practical advantage in a rabbit which walks on its hind legs, and at the moment this Arctic is not a convenient summer resort. Nevertheless it is well that Canada's northern regions should be rounded off by legal possession of this group. Recalling the extraordinary manner in which the line of profitable exploitation has been pushed back in recent years, few would care to predict that Sverdrup's discoveries are worthless. A few years ago Halloran, of the James Bay, were beyond the bounds of civilization—and now there is a railroad to Churchill and in a year the railway will reach Moose Factory. The future may hold for the Arctic regions advances relatively just as sensational; and in the meantime a good many newspaper readers—and editors—will have consulted their atlases and will know just a little bit more about the receding North—Ottawa Journal.

## Decrease in Fall Plowing

Only 36 Per Cent As Compared With 46 Last Year

Fall plowing was not so good this year as last. A crop report issued by the Dominion Bureau of Statistics states: "For all Canada the proportion of land intended for next year's crops that had been plowed at October 31, 1930, is estimated at 36 per cent, as compared with 46 per cent in 1929, and 29 per cent in 1928. By provinces, the proportions for 1930 are as follows, with the corresponding figures for 1929 within brackets: Prince Edward Island, 60 (72); Nova Scotia, 32 (48); New Brunswick, 72 (58); Quebec, 74 (78); Ontario, 60 (61); Manitoba, 60 (84); Saskatchewan, 11 (19); Alberta, 8 (13); British Columbia, 43 (46)."

**Alberta Gasoline Consumption**  
Preliminary figures compiled by the Deputy Provincial Treasurer for Alberta show that a total of 37,000,000 gallons of gasoline was purchased in the province during the first nine months of the year, resulting in a revenue of \$1,850,000 to the province, less the refund on gasoline used for industrial purposes. Last year's 34-million purchases amounted to \$3,600,000 gallons.

**A National Undertaking**  
The B.C. Telephone Company has announced the beginning of construction of British Columbia's link in a complete trans-Canada telephone system. The provincial link will cost \$1,250,000. All Canadian telephone companies are co-operating in this national undertaking.

"Your little boy has stolen a cake at the baker's."  
"Toto, you naughty boy—stealing at your age!"—Montique, Charlier.

W. N. U. 1867

## Planters Win Envious Place

British Experts Praise Flavor Of Canadian Grown Tobacco

At the exhibition of British industries held in London, England, at the beginning of the summer, manufacturers made a great display of the tobacco grown in different parts of the Empire. The Canadian product, alongside Rhodesian and Indian tobacco, won a large measure of success. Its aroma and flavour were praised by the experts. It is well known that our tobacco is of the best grades for the best brands of cigars and cigarettes. The flavour which they enjoy is principally due to the care which is given to their culture and treatment. Planters understand the necessity of using scientific methods to get the industry established on a profitable business basis. They have adopted the best commercial varieties and have won an enviable place in British and foreign markets.

## Russia Buys Hogs

Purchased Twenty Thousand Pigs For Germany

Twenty thousand pigs, worth several million marks, have been bought by the Soviet Government from Germany for export to Russia via Poland in sealed railway wagons. The Soviet is paying 20 per cent of the purchase price in cash and the rest on a credit guaranteeing to the German Government. The pigs are to be used for breeding purposes. It is said, but it is believed in Germany that most of them will eventually find their way into the Russian slaughter houses.

## Encourage Poultry Raising

Booklet To Be Sent Out This Winter To Saskatchewan Breeders

Between 3,000 and 4,000 poultry breeders of Saskatchewan will receive this winter a catalogue booklet to assist them in their work, according to arrangements made by the Saskatchewan Poultry Breeders' association executive. The catalogue will contain the names of owners of "record of performance" flocks, of which there are from 15 to 18 in the province, approved flock breeders and turkey breeders.

## Alberta's Rhodes Scholar

Kenneth W. Conibear, who achieved his early education by home study in the practically schoolless northland, is Alberta's Rhodes scholar for 1930. The selection has just been announced. Conibear, who hails from Fort Smith in the Northwest Territories, will graduate from the University of Alberta next May. He is a member of the Order of Merit in honors philosophy, and leaves in September next for a three-year course at Oxford.

## Represent West at Royal Winter Fair

Delegation of Alberta and Saskatchewan Exhibitors Will Arrive in Toronto Tomorrow

representative, Agricultural Dept., Canadian National Railways, Vancouver, B.C.; Avery McConnell, Weston, Sask.; I. C. McDonald, Winton, Sask.; T. P. Devlin, superintendent of farm employment, Canadian National Railways. Second row: W. E. Schmidt and Robert Wylie, of Vegreville, Alta., Dominion Champions in Swine Club Judging, and Borden and Vernon McGeigh, of Camrose, Alta., Dominion Champions in Calf Club Judging. Bottom row: Bill Perry, Armstrong, B.C.; Agnes Croighton, McConnell, Man. Badie McConnell, McConnell, Man. and Arthur Nash of Armstrong, B.C. —Photo Canadian National Railways.

## Policy To Help Agriculture

Constructive Policies Are Outlined By Federal Minister Of Agriculture

Great increase in pork production in Canada on account of the grain situation was predicted by Hon. Robert Weir, Federal Minister of Agriculture, at a recent banquet in Toronto given by him on behalf of the Federal Government to agricultural, business executives and government representatives attending the Royal Agricultural Winter Fair. Weir outlined a constructive policy for promoting greater prosperity for agriculture in Canada, emphasizing quality production. For improvement of live stock the Canadian Government will supply sires where demand justifies, arranging change of location after two years and will supply breed sows of bacon type at cost to farmers, and hopes to import outstanding sires of different breeds of horses. It is also proposed to set up laboratories available at nominal fees to eradicate disease from poultry and to take effective steps to prevent importation of disease. Hon. Mr. Weir advocated the scientific method of feeding, using home grown feeds and attention to science of marketing, as measures calculated to insure Canada's continued increasing importance in agricultural production.

## Not The Last Word

Commercial Fish May Yet Be Found In Northern Bay

The report of fish sterility in the deeper waters of Hudson Bay is not the last word in that important respect. There remain the shallower depths of James Bay, the estuary of immense inland streams where various species—and many fish—exist and have been taken. The same conditions exist in Northern Manitoba where salt and fresh water communities, where food is washed into the inlet and stream mouths. Fish in commercial quantities have been taken there.

## Deaths From Alcoholism

Deaths from alcoholism in the United States declined last year from the total attained in 1928. A census bureau tabulation of the total deaths attributed to that cause in the registered states of 46 states, the District of Columbia and a group of nine states in the other two states—showed 4,239 deaths against 4,627 recorded in 1928.

## Cattle Shipments To Britain

The first shipment of cattle to Great Britain left Montreal recently—some 600 head—with a further shipment of 400 head scheduled to follow. The opinion is expressed that other orders are likely to go forward before the close of the year.

# New And Unique Mineral Found In Alberta May Have Far Reaching Possibilities

## Crate Feeding Pays

Many Good Reasons Why Crate Feeding Of Poultry Is Profitable

Some very good reasons why crate feeding poultry are supplied by the Division of Poultry Husbandry of the Dominion Experimental Farms, among which are the following:—

Crate feeding pays because it produces the milked grades which bring the best prices.

The levying wholesale merchants are now buying poultry by government grades, with substantial differentials between each grade.

The premium assured for birds which grade "milked" makes crate feeding well worth the cost.

The farmer should crate feed because: It is the only way in which he can get the premium assured for milked poultry; the last pound, which the milk grades cost to produce and increases the value of the bird by from 50 to 75 cents or more; it is the best way in which to properly finish poultry for market.

The consumer wants milked poultry because: It is the milked grades which give assurance of quality which satisfies; it gives him the best value for his money in terms of succulent chicken; it comes from the oven tender, juicy and sweet; the bird of bird he really likes to eat.

## To Produce Better Grain

J. C. Mitchell, Of Dahnada, Sask., Will Devote Energies To This

End  
Three times winner of the world's championship for wheat at the Chicago International Grain Show, J. C. Mitchell, of Dahnada, Saskatchewan, does not expect to compete for further honors at the world's grain show, in Regina, in 1932. Instead, he will undertake educational work among Saskatchewan farmers with the object of encouraging them to compete at the show.

Although Mr. Mitchell claims that there is a great deal of satisfaction in producing better grain, he has never been produced before, he has stated in the past that from a financial point of view the experiment was does not offer much inducement to the average farmer.

## Manitoba Butters

Sixty Carloads Shipped This Year To Toronto Market

M. A. Gibson, provincial dairy commissioner, states that since 1915 nearly \$20,000,000 worth of creamery butter has been shipped out of Manitoba, the peak being reached in 1929, when 200 carloads valued at \$2,607,600 were shipped. This year 60 carloads have been shipped to the Toronto market where Manitoba creamery butter commands a premium over the local product.

## One On The Joker

One of a small company cracking jokes asked: "Can you tell me the difference between a Scotman and a cocoanut?"

No answer being forthcoming, the speaker said, "Well, you can get a drink out of a cocoanut, but—"

"Excuse me," put in one of the company, "but I happen to be a Scotman. Would you like a drink?"

"Oh, yes," eagerly answered the joker.

"Then buy a cocoanut," was the reply.

## Germany Has Air Rules

A new set of aviation rules has just been issued in Germany. "Planes must fly over cities at an altitude permitting them to make a forced landing at an airport. All planes must pass others from the right and must give a wide berth to the left when approaching a plane in the air. Red lights are to appear on a plane when it is about to land."

## Air Line To Cape Town

The tragic loss of K-101 has not halted the British Government's plans for future development of air routes with heavier-than-air machines. Early in the new year the first stage of the great airway across Africa to Cape Town will be opened and giant passenger machines carrying 40 passengers, multi-engine for safety, will be put in operation.

## Strong Canadian Wood

Tests made by the Forest Products Laboratories, of the Forest Service, Department of the Interior, Ottawa, show Douglas fir to be one of the strongest and stiffest of Canadian woods.

Long and somewhat secretive laboratory estimates are expected, shortly, to add a new mineral to the roster of the Dominion's products. Though research was carried on in university and industrial laboratories in the east, principally Toronto, manufacture is to be chiefly in the west.

The mineral is vermiculite, or as it is more commonly known, zonolite. Its potential uses are chiefly as insulation and as an acoustical treatment in buildings.

Samples of the raw material seen in Calgary, were in appearance and to touch, like crude mica of dark green color. It is a silicate and insoluble in most acids. Coming from the mine, it is in size from dust to pieces several square inches in area. In the raw form, it weighs 144 pounds per cubic foot, and when heat is applied to it, it expands enormously till it has a bulk weight of approximately 10 pounds per cubic foot. It is this peculiar characteristic, research workers say, which gives it its commercial possibilities. It also changes its color to a bluish green. In Calgary, tests have been made by grinding the mineral over different sizes of wire screens, then firing it in a 20 ft. furnace.

"The economic value of zonolite," says Angus Graham, Toronto research consultant, "can be used to aid in the experiments." It is attributable to its thermal and sound insulating properties. Its ability to withstand heat is important in the light weight and pleasing appearance.

He goes on to say that not only does it not burn, but it does not melt. It does not readily transmit heat. Canadian experiments are supported by highly technical investigations carried on by Bureau of Standards at Washington. The mineral was used as high temperature insulation for turbines and dry kilns, pipes and boilers.

Tests made by Prof. G. R. Anderson, of the University of Toronto, in his laboratory, have demonstrated zonolite's ability to absorb sound. The eastern scientist used it in the form of a building, glass, plaster, and quarters zonolite, one quarter wood pulp. His research shows that, at a sound frequency of 312, it has a sound absorptive coefficient of .25. It is a non-technical word, it speaks up sound and soles to a degree that makes its use feasible. It is a sound and non-technical word, it speaks up sound and soles to a degree that makes its use feasible. It is a sound and non-technical word, it speaks up sound and soles to a degree that makes its use feasible.

So far, chief sources of supply are in the United States. The traces of the material have already been found in Canada and these are being carefully followed up. Further development is largely due to the work of Canadian engineers and scientists.

Possibilities of the mineral were discovered by accident. Dr. N. A. Alley while prospecting an old mine shaft for molybdenum and vanadium, placed a miner's candle in the wall of the shaft. It touched a projecting piece of vermiculite. Noticing, with surprise, the expansion and change of color under the flame, he took samples. This led to the development.

Research work has been carried on with no publicity. No one here has the results been issued to technical papers. Nor will any of those linked with the work make claims for anything revolutionary. They simply laid the characteristics of a new and unique mineral, expressing the opinion that it will soon be utilized commercially, and generally. It has already been tested in the west as an insulating material in theatres. One large Canadian concern, however, sufficiently impressed by the results to pursue continued experiment and test manufacturing processes in the west.

## New Species Of Deer

Two thousand caribou, a cross between a large woodland caribou and a reindeer, are to be distributed among the reindeer herds of Alaska. The herd has been built up during five years of experiments on Nulivik Island in the Behring Sea. The interbreeding of the two species has produced a herd heavier than either the caribou or the reindeer. W. B. Miller, director of the work, says.

## Heavy Wheat Shipment

A consignment of 200,000 bushels of wheat has been sold to the Mexican Government by the Canadian Wheat Board. The deal was put through by the Canadian trade commission in the Interior, Ottawa, and announced under the office of Hon. H. H. Stevens, Dominion Minister of Trade and Commerce.

**ATTENTION SCHOOL GIRLS!**  
All Tingey models are created and sketched in Paris and the patterns are made in New York.  
If you like to look really smart, you must have a woolen frock with a bolero jacket.  
For hardy wear, feather weight tweed offers a marvelous nothing, and this is the reason why it is called chin. It is adaptable in Bordeaux-red mixture with a blouse of plain white linen or wool jersey.  
The all-wool, box-plated skirt, belted at the natural waistline, is so pretty and girlish. The blouse has long sleeves, so the little bolero jacket may be removed when you warm in the classroom.  
Wool challis prints, wool jersey crepe patterned and plain woollens—covert cloth and tweed-like cottons are suitable for this practical model.  
This pattern may be obtained in sizes 8 to 14. It is ready for immediate delivery. It is hand cut.  
Send 25 cents (in stamps or coin) for pattern, and the little bolero jacket and plainly your name and full address, the number of the pattern and the size you want.

WORLD HAPPENINGS  
BRIEFLY TOLD

"Totals," claimed by her owners to be the "world's oldest cat," is dead at Winnipeg. She was 23 years old. There are no survivors.

The net value of Britain's national wealth is now \$90,225,000,000, according to Sir Josiah Stamp, noted economist, who in 1914 put the figures at \$7,500,000,000.

The total estimated wealth of the prairie provinces is \$7,380,000,000, according to a statistician issued by the industrial development board of Manitoba. This is 25.51 of the Canadian total.

The United States and France are shown by the bulletin of the Federal Reserve for November to control the world's supply of gold. Together the two countries hold about 60 per cent. of all yellow metal.

Defending his country's policy in India, Sir Ronald Lindsay, as guest of honor at a dinner in New York, called the relations between Great Britain and India the most pacific in their history.

Juvenile immigration into Canada will be limited to actual demands. It was decided at a conference attended by federal and provincial government representatives and those of interested societies.

The Royal College of Physicians and Surgeons of Canada, organized a year ago, now has a constitution, set of by-laws and a code of ethics, all of which have been ratified by the fellows of the college.

A hostel is to be opened in Ottawa by the Canadian Legion to provide shelter for veterans of the Great War now in poor circumstances. It will have 50 to 100 beds and a full kitchen.

Eighty-eight years of age, "Jerry" Robinson, one of Winnipeg's noted pioneers and business men, died at his home, following an illness of only two days. He succumbed to an attack of pneumonia.

Vice-Admiral Sir Arthur Kipling Walstead, present commander-in-chief of the China station, has been appointed to succeed Admiral of the Fleet, Sir Roger Keyes, as commander-in-chief at Portsmouth.

Prince George Bibesco, of Rumania, was elected president of the International Aeronautic Federation, succeeding the Count de Vaux, who was killed in an airplane accident in the United States last fall.

Germany has made a demand before the preparatory disarmament commission that a general disarmament conference be called for November 2, 1933. No discussion on the suggestion took place.

The location of 60 families on 14,000 acres of good land between Merrillville and Oyster River on Vancouver Island, one of the biggest land settlement projects ever undertaken in British Columbia, is under consideration by the C.P.R.

Between 10 and 15 per cent. of northern Saskatchewan wheat is still unthreshed, according to a report issued by the soldier settlement board at Prince Albert. Thousands of acres of grain will remain under snow till spring.

## Lines Stopped To Aid Islander

As the liner "Ionian" was passing lonely Pilemar Isle, in the Pacific, it received an appeal for help for a man dying from lockjaw. The liner was stopped, and the ship surgeon was taken ashore in a small boat. He treated the man, who rallied, and gave the islanders instructions as to nursing and treatment before returning to the liner.

## Tree Seed Planted From Air

The forestry department of Hawaii has been engaged this season in planting tree seed by aeroplane. A U.S. army plane was used on the job. It was flown over a large eroded area and 1,600 pounds of seeds were dropped from an elevation of 2,000 feet. Mixed seed was used.

"Then you want my honest opinion about your divorce?"  
"No, no, what I want is your professional opinion."—Buen Humor, Madrid.

W. N. U. 1867

## Canada's Fishing Grounds

## Most Extensive in World and Yield Is Exceptional in Variety

"The Dominion's fishing grounds, both sea and inland, are perhaps the most extensive in the world and they yield food fishes in exceptional variety. Of prime natural quality, these fish are marketed in numerous different forms—fresh, frozen, canned, dried, smoked, etc.—by an industry whose processing methods have kept pace with the most approved fisheries practices. As a result, fresh or prepared fish of the first quality are always available to the Canadian consumer. It is also to be noted that in many cases fish foods are cheaper than other food products."

As indicating the importance of the fishing industry to the country, a statement of the Department of Fisheries points out that the industry represents an investment of some \$62,000,000, and is the direct source of livelihood for some 80,000 Canadians and their dependents as well as an indirect source of employment for a large number of workers in various industries in all parts of the Dominion. Annual fisheries production now runs between fifty and fifty million dollars and the fisheries add approximately \$36,000,000 to the country's export trade every year.

The fisheries resources, however, are capable of much further development and increasing popular attention to their exploitation on sound lines must make the fishing industry still a greater contributor to the economic strength of the Dominion.

(By Eva A. Tingey).

## LOVELY AND SMART

All Tingey models are created and sketched in Paris and the patterns are made in New York.

A charming chic tulle—lovely and smart as paint—to be carried out in Bordeaux red tweed mixture in monochrome effect, is today's model.

The right side of the plique over vestee is passed through a slot, terminating in a neat end.

The triangular pockets lend a sporty air. At either side of the front of the skirt, inverted plaits provide the necessary width and flare to the hem.

There are also lovely blue blues, greens and browns.

Wool jersey in cricket green or black is stunning with white plique trim.

Wine red crane crepe with egg-shell faille crepe and black crepe marocain with white are modish for all-day wear.

This pattern may be obtained in sizes 16 to 20 and in 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

## NOTED MEDICAL MEN

Above are shown three noted medical men, who attended the annual meeting of the Canadian national committee for mental hygiene in Toronto. (1) Dr. A. H. Desloges, general director of hospitals for insane in province of Quebec. (2) Dr. A. Grant Fleming, professor of preventive medicine and public health at McGill University, who has been appointed medical director of hygiene council to succeed Dr. C. Hinks, and (3) Prof. J. M. MacEachern, director of department of philosophy at Alberta, Edmonton.

## About Tuberculosis

## Educational Plan To Combat Disease Waged All Parts Of The Dominion

Great encouragement has been given in the last ten years to those people who believe that much of our disease can be prevented.

Every doctor and almost every enlightened layman holds this belief and the encouragement which the last ten years has brought to these people is evident in the success which is crowning the efforts of these people who are fighting that dread destroyer, Tuberculosis.

The death toll from all forms of Tuberculosis has dropped about one per hundred thousand population per year or from 50 to 80 in ten years. During the same interval the sanatorium treatment beds have increased from 1,400 to 7,000.

It is interesting to note how this has been accomplished. Canadians are fortunate in having an excellent organization working on their behalf in this regard—the Canadian Tuberculosis Association, which organization has for years been in the very forefront of the battle against this disease. They have carried the warning against tuberculosis right to the minds of the general public. They have waged an educational campaign for the saving of many careers and for a very great deal of prevention. One of the most interesting phases as well as the most important of their work is the branch which is devoted to studies by physical medical examination. People in whole districts are frequently examined for signs of incipient tuberculosis and many cases are found of people who are afflicted with tuberculosis in its incipency. Since the disease at this stage is almost certainly and permanently curable the Association is thus responsible for the saving of many careers and the prevention of much misery.

In this connection the Annual Christmas Sale should be mentioned. This sale which receives the support of all classes of citizen serves a valuable and two-fold purpose. First of course it raises money. This is done by the committees to maintain diagnostic and home visiting nursing services. Secondly the annual educational campaign of the Christmas Sale gives the public much needed information about the work and the need for the work.

The type of citizen who buys Christmas Seal's an official of the organization recently said, "is not the kind to let his brother down."

## Fostering Home Industry

Saskatchewan Caught Fish To Be Used In Provincial Institutions

With a view to fostering the fishing industry in the northern part of the province, the government is substituting Saskatchewan-caught whitefish for the British Columbia product, formerly used in the mental hospital at Weyburn and the industrial school, Regina, and the old folks home, Woleseley.

The government has also written to the secretary of the Anti-Tuberculosis league suggesting the introduction of the Saskatchewan-caught whitefish in the sanatoria at Fort Qu'Appelle, Prince Albert and Saskatoon.

Ranches Change Hands  
Ranch lands totalling 60,000 acres in southeastern Alberta have recently changed hands in exchange for best of the Washington, property, the amount involved being reported as \$1,500,000. The ranches were formerly known as the "99" or "99-English" ranch. The new owners intend stocking the land with pure bred cattle and polo ponies.

Teacher: "Name some of the most important things existing today, which were not known one hundred years ago."  
Pupil: "You and me!"

## The Spirit Of The Red Cross

What the Junior Red Cross Is Trying To Accomplish For Peace

When the great conference of the world's Red Cross Societies met in London, England, with the Duke of York as Chairman, they saw at the Scala Theatre, by means of a play what the Junior Red Cross is trying to do in the world for peace, and health, and happiness.

In the words of the Spirit of Red Cross the trinity of aims was well expressed as follows:

"I am the Red Cross; who am known of all men  
To be merciful and compassionate,  
And of my fellowship are such as would rain serve  
The sick and the suffering.  
Many there be of my servants who have won  
To Honour and Renown.  
But for the most part their reward lies hidden  
In the hearts of men,  
And now call I my children to be of my company.  
For they, too, can be helpers  
Following after their Father in my footsteps  
Who we wage the threefold thread Of Health, Hope and Friendship."

## Bar Convict Labor Goods

United States Takes Action To Prevent Importation Of This Nature

The treasury promulgated regulations against the importation of convict-made goods, while a witness was telling the House Committee investigating committee how prisoners fare in Soviet camps.

The regulations require importers and shippers to show that imports from all countries are not produced by convict labor.

Russian goods have figured in several recent hearings at which the treasury was asked to bar certain products, but in announcing the regulations, Assistant Secretary Lowman said they were "not directed against Russia, but against everybody."

Many more buildings are being erected in Jamaica than a year ago.

## SUNDAY SCHOOL LESSON

DECEMBER 14

## SAUL OF TARSUS — HOW A PHARISE BECAME A CHRISTIAN

Golden Text: "I count all things to be loss for the excellency of the knowledge of Christ Jesus my Lord, for whom I suffered the loss of all things, and do count them but dung, that I may gain Christ."—Philippians 3:8.

Lesson: Acts 22:3-5.

Devotional Reading: Isaiah 61:8.

## Explanations and Comments

Paul's Birthplace and Education, verses 3-5—Paul had been charged with being an enemy of the Jews and that law, and he began by declaring that he was a Jew through and through, born in Tarsus of Cilicia but educated in Jerusalem, having been taught by the great Rabbi Gamaliel "according to the strict law of our fathers," and that he was as zealous for God as they all were anxious for God as they all were.

The Arresters Arrive, verses 6-9—In his zeal Paul had persecuted those of the "Way," he told the men in Jerusalem, blinding and sending men and women to prison. The high priests and elders could bear witness that he had received authority from them to make arrests, and armed with these he had started for Damascus that he might bring back to Jerusalem for punishment those who were lowering of Christ whom he might find there.

Paul was very near Damascus, after a long journey of one hundred and eighty miles, when he suddenly saw an extraordinary light about him and he fell to the ground.

Voice and answer followed. "Saul, Saul, why persecutest thou Me?" "Who art thou, Lord?" "I am Jesus of Nazareth, whom thou persecutest," said the Theodotes, verse 10.

"What shall I do, Lord?" was Paul's first question, verse 11. He believed in Christ. He had instantly turned from a persecutor to a follower, and given himself to his new Master's service. To know what Christ would have him do became thereafter the one desire of his heart; for he was the bond-servant of Christ; to him to live was Christ.

"Arise, and go into Damascus," was the answer. There he would learn what he was to do. The glory of the light had blinded him, and he was led by the hand like a little child.

Commissioned, verses 12-15—There in Damascus Ananias, a devout and highly esteemed man, came to Paul and called him Brother, "Brother Saul," he said, "receive thy sight." Paul looked up and saw him. It was God who had given him this vision and message. Ananias told him, and he was to be a witness for Christ unto all men.

An Ice Cream Tree  
One tree in the green-house of Mrs. M. J. Hunt, at Memphis, Tenn., is very popular with the children. It bears a fruit that "tastes like strawberry ice cream and looks like corn."

It takes the ears 18 months to ripen, according to Mrs. Hunt, who got the tree from a St. Louis florist six years ago. The berries are soft and mushy and very rich.

Done My Advertising  
The will of the late Honorable P. C. Larkin, amounting to \$3,500,000 in bulk of which was left to his family. As Mr. Larkin started as a tea merchant in a very humble way, his success is a striking example of what can be achieved by energy, enterprise and advertising. From practical obscurity he left a name that is known throughout the entire world.

## May Tax U. S. Publications

Federal Government Likely To Impose a New Form Of Tax

The Montreal Gazette published the following dispatch from Ottawa.  
"A determined effort to lessen what amounts to unfair competition for Canadian manufacturers is almost certain to be made by the present government in its revision of the tariff for the coming session, by imposing some form of duty against periodicals entering Canada and bearing a large amount of advertising of foreign-made goods. Such a blow would be aimed at large weekly publications from the United States, and it is expected that the duty will be imposed on a percentage basis, and that the publishers will be required to furnish advance copies of their publications to the department of national revenue for purpose of appraisal."

## Bounty Adds Butter Import

Reason Australia Can Compete With Canadian Product Says Caulder

The reason Australian butter can compete on the Canadian market is because there is a bounty of about nine cents on every pound exported, thus giving the Australian exporter leeway in price-cutting, according to J. A. Caulder, former president of the National Dairy Council of Canada.

Mr. Caulder pointed out that for every four pounds of butter produced in Australia, one pound was for export.

The speaker pointed out that 60 per cent. of the Canadian West was suitable for dairy production, and he strongly recommended introduction of more mixed farms in the Dominion to overcome the present wheat depression.

## Plotting Against Soviets

Reports State Leon Trotsky Is Directing Operations

Despatches to the Telegraph Union from Kovno, Lithuania, recently said the OGPU (Soviet secret police), had discovered an elaborate plot by anti-Communist factions in South Russia with headquarters at Taganrog.

The report said the plotters were acting under the direct advice of the exiled Leon Trotsky, who was reported to be in Istanbul, with the object of overthrowing the Stalin government.

## Solid Witnesses

The practice of establishing concrete monuments—known as fundamental bench marks—by the Geodetic Survey of Canada, Department of the Interior, in the course of its work in tracking the elevation of the country above sea-level was inaugurated in 1925.

New Winnipeg Industry  
A new Winnipeg has come to Winnipeg from International Falls, Minnesota, the Reichert Auto Body Works having purchased a building for the establishment of their business.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is allows the full sunlight to enter, is light and flexible, easy to cut and fit, cluding the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass, which do not penetrate ordinary glass.

peratures, keeps out cold and wet, but glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.  
51 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNHOUSES ETC.

## BRITISH COAL MINERS REJECT STRIKE PROPOSAL

London, England.—There will be no great national coal strike in Great Britain, for the time being at any rate. Delegates to the miners' conference here turned down a strike proposal by the narrow margin of 230,000 to 260,000. The delegates also implied there would be no strike ballot in the mining districts in question as previously seemed most likely.

Interest has now turned to the individual districts, above all to Scotland, where 85,000 miners are still out, and to South Wales, where the outcome of the negotiations pending on between the owners and miners may well give a lead to the whole country.

In the South Wales fields probably the most important coal area in the country, the principle of the hour is the miners' demand that the 7½-hour working day, established by the 1925 coal mines act, be maintained. The owners have insisted that they be permitted to spread the 45 working-hours in a week through five eight-hour shifts and one nine-hour shift.

Credit was being given to Premier Ramsay MacDonald for his part in meeting a national conference of the owners and members of the cabinet, sitting with the delegates themselves, except that every effort be made to reach a settlement with the owners and his counsel prevailed.

### Viceroy Of India

London, England.—The Daily Mail says a suggestion has been seriously advanced that Premier Ramsay MacDonald become viceroy of India in succession to Lord Irwin, who will retire in April.

The Mail adds that the idea is a result of the good impression which Mr. MacDonald has made in conducting the Indian round table conference. It admits that such an appointment, which customarily is accompanied by a peerage, may appear fantastic, but says that the idea is more than mere rumor, and believes the appointment would satisfy the Indian people.

The question of Lord Irwin's successor is a favorite subject for speculation in political quarters just now. Lord Correll is most frequently mentioned.

### Aviators Leaves Message

Capt. Burke and Companions, Missing Aviators, Carry Words to Lake, "White Horse, Yukon Territory.—"October 17, leaving for White Lake, need food badly."

News was the message discovered carved in a tree near the stranded plane of Capt. E. K. A. Burke and two companions who were on their way to this north country since October 13. Pilot E. L. Wasson and Joe Walsh, veteran prospector, returned here after having inspected the plane at close range. Wasson and Walsh sighted the machine from the air ten days ago and later, five days later, saw it within fifty miles of the location, mashing the intervening distance on snowshoes.

### Relief For Indians

Any Distress Will Be Taken Care Of By Government

Ottawa, Ont.—Prompt action will be taken by the government to relieve any distress reported among Indians this winter. Hon. T. G. Murphy, minister of interior and Indian Affairs, said on his return to Ottawa after a month's trip to the west.

Mr. Murphy conducted a personal examination of numerous Indian reservations in the neighborhood of the larger western centers and brought back the latest information from the southern sections, at least, concerning the Indians were normal.

### Canada Doing Her Part

Ottawa, Ont.—Canada is doing her part as regards aid in the world-wide struggle against malaria. Reporting on the health committee of the League of Nations Society in Canada at an executive meeting of the society, Senator Dr. H. B. Sealand pointed out drugs were neither manufactured in nor exported from Canada. Through the R.C.M.P. and narcotics branch, the Dominion Government maintained a close tab on importations.

Argentina's present radio boom is greater even than last year.

W. N. U. 1567

### By-Election Won By Labor

Voting In Whitechapel Favors the Government Candidate

London, England.—James Hall, Labor party candidate, won the by-election for Whitechapel by a narrow margin of 1,100 votes.

The results of the polling were, James Hall, Labor, 8,541; Barnett Janner, Liberal, 7,445; T. L. E. B. Guinness, Conservative, 3,735; Pollit, Communist, 2,106.

The victory represented a greatly reduced majority for Labor, the vote of 8,544 out of the total of 21,830 votes compared with the 13,701 ballots cast for the party, out of 21,639, in 1929.

Whitechapel, comprising, for the most part, one of the so-called poor sections of London, had returned Labor candidates in 1923, 1925 and 1929, and each time with a large majority. The majority of Harry Gosling, Labor nominee, in the general election of 1929 was 9,180, one of the largest in the kingdom. The vote went to Gosling, 13,701; Sedgewick, Liberal, 4,521, and T. L. E. B. Guinness, Conservative, 3,417.

## HEAVY GRAIN CARRY-OVER HAS BEEN DISPOSED OF

Port Arthur, Ont.—The statistical situation as far as Canada's wheat crop is concerned is in a good condition, and the government has been quick to act.

The heavy carry-over of approximately 100,000,000 bushels of last year has been disposed of. Mr. Ramsay MacDonald, if the present shipments to Europe can be kept up to the end of the season, the carry-over for 1931 will be back to normal. There was every likelihood that this would be the case, depending to some extent on the quality of the Argentine wheat which will come on the market in February.

Dumping of Russian wheat on the British market had its effect. Mr. Ramsay stated, but he pointed out that the Russian surplus had been exhausted and the situation now on would not likely be disturbed by anything the Russians could do.

Although pointing out that his department had nothing to do with the marketing of the grain crop, Mr. Ramsay said "I feel we are at the bottom of it now. No one can really tell what is going to happen, but I believe there will be a gradual change for the better."

### Assembly Completes Work

Disarmament Commission Asks Geneva To Set Date For

Geneva, Switzerland.—Completing its task of drafting a general disarmament scheme for consideration by a special assembly of the League of Nations, the preparatory commission invited the council of the League of Nations to set a date for the momentous assembly of statesmen.

The commission rejected an offer by Germany to have the commission recommend the specific date of November 5, 1931, for convening the general conference.

Canada laid a fight to delete from the article military planes and personnel used in civil work, such as patrolling forests and carrying aid to distressed citizens in remote places. The Canadian plan was supported by the United States and it is understood the arrangement will be reached at the general conference to meet the wishes of both countries.

## Britain Protests Radio Speech From Russia

Regarded As Direct Violation Of Anti-Propaganda Agreement

London, England.—The British government will send a formal protest to Moscow against a radio speech broadcast from the Soviet capital, Rt. Hon. Arthur Henderson, foreign secretary, informed the House of Commons. The speech, he said, is regarded as "inciting British workers to revolution" and was in direct violation of the anti-propaganda agreement.

### Fire Threatens Northern Town

The Pas, Man.—The settlement of Gilliesburg, more than half-way up the Hudson Bay Railway from The Pas, was threatened by fire, according to a report reaching here. A fire in a pool room and a general store were wrecked by the blaze before it was controlled. Damage totalled \$6,000.

## HEADS MENTAL HYGIENE WORK

### Constitution For India

#### Plan Is Gradually Taking Shape At Round Table Conference

London, England.—In rough outline, a federal constitution for India is gradually appearing in the discussions of the round table conference. It is emphasized in authoritative quarters that no decisions have been reached as yet. The scheme appears only in skeleton form. Everything still is in the tentative stage.

But discussion in the conference, sitting as a federal relations committee, is turning on these subjects as coming within the domain of India's proposed new federal authority:

1. Shipping, navigation, and navigation services.
2. Salt.
3. Currency and coinage.
4. Trade, commerce and banking.
5. Control of opium cultivation.
6. Control of petroleum and explosives.
7. Geological survey.
8. Invention, designs and copyright.

9. Migration from and into India, and interprovincial migration.

10. Traffic in arms and ammunition.

11. Survey, meteorological services, census and statistics.

12. Immovable property in the dominion of the government of India.

13. Federal public services.

Indian princes, rulers of the crown states, and representatives of British India all agree that all the above are matters of common concern. It is the policy of the committee, therefore, in plotting out the new federal authority, to consider them first.

Consideration of four other subjects has been deferred. These are: First, defence of India and all matters connected with the army and navy, including naval and military works and cantonments; second, external affairs, including the naturalization of aliens, and migration beyond India; third, relations with the states in India; and, fourth, political changes.

### Start Lengthy Fight

British Aviators Attempting Record Trip To Cape Town

Croydon, England.—Miss Winifred Spooner, 25, and Flying Officer E. C. Edwards, started December 3, on a 16,000-mile air journey to Cape Town in their blue and silver monoplane. They will attempt to break the nine-day flight record to the South African city.

The aviators intend to fly by day and by night, taking alternate turns at the controls. The aviators have been flying for three years. Early in 1930 she completed a flight from South Africa to Croydon.

She is a sister of Captain Tony Spooner, former Royal Air Force pilot and now flying instructor of the Montreal Light Aeroplane Club.

Eckener To Testify

London, England.—The case of inquiry into the crash and destruction of the R-101 in France recently, has been resumed after an adjournment of several weeks with Dr. Hugo Eckener, master of the Graf Zeppelin, present to give his expert testimony.

### Should Watch Chinese Markets

Vancouver, B.C.—Greater attention should be given to the market opportunities of Hong Kong and southern China if Canadian business men wish to capitalize those opportunities, said Paul Sykes, Canadian trade commissioner in Hong Kong.

### Had Outstanding Success

Saskatoon, Sask.—Outstanding success in the \$500,000 fox show was achieved by Dr. H. R. Macdonald, Saskatoon, who won three first and two seconds in the six classes he entered.

## BUY CHRISTMAS SEALS

When a Feller Needs a Friend

### Constitutes a Precedent

#### Australia First Dominion To Have Native-Born Governor-General

London, England.—A native-born Australian will succeed Lord Stonehaven, the present governor-general of Australia, in the person of Rt. Hon. Sir Isaac Isaacs, chief justice of the Commonwealth, and acting governor-general.

Sir Isaac Isaacs will take up his duties when Lord Stonehaven's term expires at the beginning of the new year.

The announcement of his appointment, made by the Imperial Government, on behalf of His Majesty, constitutes a precedent in Empire annals. The new governor-general will be the first native born citizen of his country to represent the King in any of the Dominions.

While Sir Isaac is in fact the first native-born governor-general of one of the older self-governing dominions, he is not the first in the Empire. Both the governors-general who have served in the Irish Free State since its inception have been of Irish citizenship. Timothy Healy (1922-1928), came from Bantry, and James McNeill, present governor-general, is a native of County Antrim.

### Flour Price Probe

#### Department Will Have Co-Operation Of Large Milling Companies

Ottawa, Ont.—Further inquiry into flour prices in Canada will be made by the Department of Labor and in this inquiry the department has been offered the full co-operation of the large Canadian milling companies.

Announcement of the continued investigation was made by Senator G. D. Robertson, Minister of Labor, at a public hearing of a two-hour session with representatives of seven large Canadian milling companies.

"It is probable that a report summarizing the results of the labor department's inquiry by register into bread prices will be completed in not distant future," said Senator Robertson, "and the offer to furnish such information, volunteered by the millers, will be accepted. The flour inquiry will be pursued further as rapidly as possible, it being obvious that many factors enter into the matter which must be the subject of full inquiry and consideration before a definite departmental decision can be made as to whether or not an inquiry by commissioner will be necessary in the public interest."

### HERMAN TRELLE

#### AGAIN WINS THE WHEAT TITLE

Chicago.—Canada's fame as the finest wheat producing country in the world was again maintained when Herman Trelle, the modest agriculturist of Cranberry, Alberta, won the northern Peace River wheat title, was once again crowned "wheat king" at the Chicago International Hay and Grain Exposition.

Repeating his success of 1926 when he brought the Peace River area to the attention as a premier wheat country, Trelle, who four years ago won the title of world's oats king as well as the wheat crown, has again marked his victory with an exhibit of hard red spring grain.

It was a double victory for Canada, however, as George Avery, of Kelso, Sask., in the heart of the prairie grain growing belt, was declared the reserve champion. He exhibited sample of Durum, while to the surprise of eminent grain authorities in attendance at the International, beat out the champion ship hard red winter samples, the best in their class, of C. Elton Smith, a former "wheat king" of Corvallis, Montana.

The Canadians were recipients of congratulations from all parts of the continent, and especially from western Canada and the home provinces of the winners.

Trelle's championship was the sixth for Canada in the 12 years of the International show. The other six times, it has gone to growers from Montana, the veteran C. Edson Smith being the only other grain man to twice-crown king of the wheat lands. It was also the first time that a soft Durum variety, as entered by Avery, won a major award, the reserve championship.

Featured by perfect uniformity and balanced content, the exhibit of the newly crowned monarch of wheat weighed 67½ pounds per bushel, a record weight. The reserve championship grain weighed 61½ pounds to the bushel, and also was of perfect uniformity. Trelle considered his winning samples the best he has ever exhibited.

### Eckener Explores Opinion

#### Zeppelin Gives In Heard At Court Of Inquiry Into Drigible Disaster

London, England.—Dr. Hugo Eckener, master of the Zeppelin, gave as the world-famous Zeppelin expert, to reconstruct the loss of the British dirigible H-10, the court of inquiry investigating that disaster.

He said it was undoubtedly leakage in the gas containers which caused the ship into a dive against a hill in France, and it was probably a break in an electrical circuit which set the craft alight.

### Fair Dates Selected

Chicago, Ill.—Following is a partial list of Canadian fair dates selected at the meeting of the Showmen's League of America and the International Association of Fair and Exposition managers. Calgary Exhibition, Calgary, Alberta, July 6 to 11; Canadian National Exhibition, Toronto, August 28, September 12; Edmonton Exhibition, Edmonton, Alberta, July 13 to 18.

### Big Sum For Defense

Washington, D.C.—The United States will spend \$100,000,000 for national defense in the next fiscal year. Congress adheres to the budget estimates forwarded by President Hoover.

## BRACKEN TAKES ON TROUBLE OF WHEAT GROWERS

Winnipeg, Man.—Over-production of wheat arising out of high prices during post-war years was blamed by Premier John Bracken for present distress of wheat farmers. Mr. Bracken spoke before the delegates to the annual meeting of Union of Manitoba Municipalities gathered at a banquet given in their honor by the Provincial Government.

Who is to blame," Mr. Bracken asked, "for encouraging cultivation of 13,000,000 more acres since the war, and the production of seven times more wheat than we can consume? The farmer should not be called on to bear the burden. There are some who say that proposals to stabilize the price of wheat are unsound—but they are better than having to adopt the living conditions to stabilize the price of wheat."

Cause of present difficulties lay in high prices for wheat in the years following the war, bringing in their train nearly 40,000,000 added acres of wheat lands throughout the world and resultant depressed prices, the premier said. He recommended investigation of the causes of depression, adoption of new methods, efficiency of production and trade arrangements with import and export, to insure markets could improve conditions, he believed.

Mr. Bracken recommended that delegates that they call on the Dominion Government to implement its program of reducing payments of wheat penalties. When the Dominion did that, he said, the province would further relieve the municipalities of the heavy levy.

### Wheat Quota System

#### Plan Is Favorably Received By Canadian Grain Exporters

Ottawa, Ont.—Proposals for a quota system in Great Britain for wheat grown in the Empire have apparently been favorably received by Canadian grain exporters. Commenting on the statement made in the British House of Commons by Hon. J. H. Thomas, secretary of state for the Dominions, that study was being given to such a scheme, Hon. H. H. Stevens, Minister of Trade and Commerce, said that no unfavorable reaction had been evident in this country.

Proposals for quotas were considered by the committee on economic co-operation at the Imperial Conference, Mr. Stevens said. The committee had concluded that quotas systems were feasible, but the minister laid emphasis on the fact that institutions of the United States and Canada, which study was being given to such a scheme, Hon. H. H. Stevens, Minister of Trade and Commerce, said that no unfavorable reaction had been evident in this country.

Whether matter that should be made clear," Mr. Stevens said, "is that fixed prices would not be involved, but a quota would merely provide Canada with a sheltered market in Britain."

Asked what protection of Canadian grain might be expected to be granted by the British government, the minister gave the opinion that 25 to 35 per cent. of Canada's exportable surplus would be involved. The operation of a quota would not be require Canadian exporters to be responsible for the storage of grain overseas, Mr. Stevens said.

### Eckener Gives Opinion

#### Zeppelin Expert Is Heard At Court Of Inquiry Into Drigible Disaster

London, England.—Dr. Hugo Eckener, master of the Zeppelin, gave as the world-famous Zeppelin expert, to reconstruct the loss of the British dirigible H-10, the court of inquiry investigating that disaster.

He said it was undoubtedly leakage in the gas containers which caused the ship into a dive against a hill in France, and it was probably a break in an electrical circuit which set the craft alight.

The Sunday school will hold a social evening in the Community hall on Thursday evening Dec. 18th at 7.30. A silver collection will be taken at the door.

After an unusually busy season at the local mines, deliveries have now slackened quite considerably, but a real cold snap could easily revive it.

The Virginian, that's the big show for Saturday night. Here is another Covered Wagon with Gary Cooper Richard Arlen, Mary Brian and Walter Huston. You just can't miss this one.

Mr. and Mrs. W. R. McRee are visiting in Calgary.

Miss Jessie Archibald of Calgary is the guest of Mrs. A. D. Nelson.

Mr. and Mrs. A. B. Caldwell left recently on their annual visit to California.

The Amity Club is holding a whist drive on Friday night at the home of Mrs. Higgins.

D. W. Harper moved to Vulcan during the week where he is opening up a barber shop. Many friends here will wish him success.

It looks as if it would be easy for grain farming to start a revival at the present time; it has so many mourners—Cream Produce.

A number of members of the Champion Elks' Lodge visited Barons on Tuesday, where a team put on degree work to general satisfaction.

The display of Christmas goods has not been slighted by Champion merchants, despite the quiet season, in fact the stocks on hand are fully up to more prosperous years.

Dr. Ralph H. McKee, Prof. of chemical engineering at Columbia has succeeded in producing a new variety of poplar which will grow ten times as fast as the ordinary kind, and will produce 10000 lbs. of merchantable wood per acre as against 250 lbs. produced by ordinary varieties. In getting this variety, Dr. McKee made selections from 125 varieties of poplars and used thousands of individual plants in his experiments.

Another Big Dance  
December 19th

There will be a dance in the Community Hall on Friday evening, December 19th. The Len Davis orchestra will supply the music and another splendid evening may be looked forward to by trippers of the light fantastic. Admission \$1.00 per couple.

Monday December 22nd that's the night the Champion Elks give their big party for all the Champion kiddies.

Dr. H. NEWTON HEAL  
DENTAL SURGEON

In Champion Tuesdays, Fridays and Saturdays.
